

Spoke Arm Flood Lighting

Single Arm Pole Top Slip Fitter

FEATURES & SPECIFICATIONS

- Spoke Arm flood lighting slip fitter slips inside the top of a square or round straight pole for a virtually seamless transition from pole to post top light fixtures.
- Rugged Die Cast Steel tenon fitter
- Allows you to seamlessly integrate Bright LED lighting fixtures onto a 2-3/8" O.D. tenon.
- Removable end caps are easy access to wires connection, installation, and replacing the existing post top mount
- EPA: 0.5
- Optional: Tenon fitter can be finished with Bright LED's polyester powder coat finishing process. This finish withstands extreme weather changes without cracking or peeling. Other standard finishes also available. Consult factory.
- Finish: Standard Dark Bronze
