

# Bullhorn Flood Lighting 3 Tenon Adapter

## Internal Pole Top Slip Fitter

### FEATURES & SPECIFICATIONS

- Bullhorn flood lighting internal slip fitter slips inside the top of a square or round straight pole for a virtually seamless transition from pole to post top light fixtures.
- Rugged Die Cast Steel tenon fitter
- EPA: 2.1
- Finish: Standard Dark Bronze
- Each tenon on top has a 2 2/8 inch outside diameter allowing you to seamlessly integrate Bright LED lighting fixtures with a standard 2 4/8 inch slip fitter.
- Removable end caps are easy access to wires connection, installation, and replacing the existing post top mount.
- Optional: Bullhorn can be finished with Bright LED's polyester powder coat finishing process. This finish withstands extreme weather changes without cracking or peeling. Other standard finishes also available. Consult factory.
- Optional: Base that fits over a 2-7/8 inch or 4 inch Tenon are available. Contact sales.
